Automation

Automation in blinds gives your home a touch of originality, improves function and adds value. It makes complete sense for those hard to reach places. We offer a blend of design, technology and innovation that is easy to use for everybody and is amazingly versatile. You can choose from wide range of portable controllers and technologies like WT, RTS and Wire Free to fulfil all your automation needs.

The Remote Control allows you to preset and easily operate a group of up to sixteen different window blinds, individually or together with just a press of a button. Remote Controls are available in different colours and can also be affixed to a wall.
